

# Search for 'Delivered' Orders

Some office supplies shipped directly from Office Depot's local warehouse are delivered at UCSF Health's logistics warehouse in Oyster Point, South San Francisco. From there, UCSF Logistics staff will deliver packages ordered from ODP throughout the day. This may clear up some confusion when customers may see their status as 'delivered' in the ODP portal, but in actuality it is in transit via UCSF Logistics. If you have not received your order after 48 hours of delivery status, the ODP tracking number can be applied to UCSF Logistics Supply Chain Management search engine.

- 1 Click 'Package Tracking' and select 'Track by UCSF Health Office Depot Order Number'.

- 2 Enter the first 9-digits (or full 12-digit) Office Depot tracking number and click 'View Report'.
